

## The St Pancras Vision

That we should be a Christ-centred community identifying, understanding and meeting the needs, body, soul and spirit of the people in our parish, the wider locality and overseas, to whom God is calling us.

## Just a thought...

A hundred years ago, everyone thought that technology would make our lives easier and that we would have lots more leisure time. Instead, people are busier today than perhaps at any time in history and the world moves faster than ever. God knows this but he also knows that it is important that we find time to rest. The Bible tells us that when God had created the world, he had a day of rest. Why don't you try to find a few moments to be still and know that he is God today and discover how much better your life will become?

## Evening Services - third Sunday of the month

We are aware that our morning services are often very busy and there is little time 'to be still and know'. So our Holy Communion service on 18th July will be a bit different. From this month, the Holy Communion service on the third Sunday of the month will be quieter and have more room for stillness. If you don't usually come in the evening but value some quiet in our busy world, why don't you come and join us?
